Neighborhoods Invited to Participate in Streetscape Design

How do you want your neighborhood to look? Now you can be a part of a positive change. Residents are invited to participate in one of two sessions to share their preferences for the City's future streetscape. They will be asked to review drawings, select landscapes, lighting, benches, and other streetscape elements they prefer in their neighborhoods.

The input sessions are Saturday, January 28 at 9:30 am in the Board of Education Auditorium, 124 Grand St. and Monday, January 30 at 6 p.m. in the City Council Chambers, 3rd floor, 83 Broadway.

Upgrades to City blocks will take place in the targeted revitalization area between Chambers and Dubois and Broadway and South St. The improvements will be paid for through the City's Federal Housing and Urban Development Community Development Block Grant (CDBG) funding. The initial streetscape project will take place on Chambers Street from Broadway to Dubois St.

"By creating a standard streetscape design in this particular area, we hope to support the goals of the neighborhood while leveraging the good work of the City's partners, especially the Newburgh Community Land Bank," said Ian MacDougall, Director of Planning & Development. "Resident input is essential to the overall success of the project."
